

32nd European Signal Processing Conference August 26–30, 2024, Lyon, France Lyon Convention Center

EUSIPCO is the premier European conference on signal processing. The 32nd edition will be held in Lyon, at the Lyon Convention Center, located close to the downtown, to the historic district and to the train station.

EUSIPCO 2024 technical program will include :

- keynotes by distinguished speakers,
- tutorials,
- special sessions and
- cutting-edge research presentations on topics that are addressing key challenges in signal processing today.

The EUSIPCO2024 edition will have a specific flavour, with focus on interdisciplinary researches in signal and image processing, geared toward major societal stakes.

Tentative schedule :

- Submission of Special Sessions proposals :
Jan. 14th, 2024
- Submission Tutorial proposal : March 1st, 2024
- Full paper submission : March 3rd, 2024
